Appendix 1: Accessibility audit	9

1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. Our Accessibility Plan will aim to:

- Increase the extent to which disabled pupils can participate in the Academy curriculum;
- Improve the physical environment of the Academy to increase the extent to which disabled pupils can take advantage of the educational provision and associated services;
- Improve the delivery of information for disabled pupils which is provided to students who are not disabled, taking account of the views expressed by pupils and their parents about their preferred means of communication;
- Promote positive attitudes to disabled people; and promote equal opportunities for all learners.

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Trevithick Learning Academy aims to reduce and eliminate barriers to the curriculum and to ensure full participation in the Academy community for pupils and prospective pupils with a disability.

The Academy aims to meet the needs of disabled staff, parents and visitors to the Academy so that they are accommodated within our environment, as far as is reasonable practical.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Trevithick Learning Academy make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

Curriculum delivery

The school's vision statement and SEN policy make clear the school's approach to the delivery of the curriculum. The school actively seeks the support and advice of all relevant services to ensure the curriculum is accessible to all students. Relevant modifications to the delivery of the curriculum are negotiated on an individual basis as required.

Individual needs

Priorities set out in this plan may change to accommodate the changing needs of individuals, as advised by SENDCo (for pupils) and Family Liaison Officer (for parents).

The school works closely with Cornwall Council Assessment and Educational Provision Team and the community occupational therapy/ physiotherapy team regarding the equipment loan service for individual pupil's adaptations.

Linked Policies

This policy should be read in conjunction with the;

- Single Equality Scheme
- Special Educational Needs and Disabilities Policy and information report
- Safeguarding Policy
- Health and safety policy
- Supporting pupils with medical conditions policy

Review and Evaluation

This plan has the approval of the governing body and will be reviewed, evaluated and amended annually.

Communicating the accessibility plan

The plan will be available on the school website and copies available on request.

Sustainability of the Policy

It is envisaged that the accessibility policy and plan will become a starting point for all aspects of school development including; policies and schemes of work; curriculum; staff training and associated services.

3. Action plan
